June 9, 2009

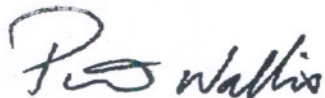

To Our Valued Customers –

Last week the domestic steel mills announced flat-rolled price increases due to unsustainable pricing compared to raw material inputs. Mill capacity has also been sufficiently reduced to coincide with current demand and channel inventory is in-line.

As a result, Allied Tube & Conduit will increase prices on all transactions of sprinkler pipe effective June 10, 2009 by 5% to 6%. Please contact your Regional Manager for further information.

Thank you for your business and continued support, we look forward to servicing your sprinkler pipe needs in the future.

Sincerely,

Patrick Wallis  
National Sales Director  
Sprinkler Division
