

Dear Valued Partner:

Please accept this email to serve as notification of a new Croker List Price Guide which is now available for download from our [website](#), or by clicking on the image below. This new pricing will become effective March 1, 2019.

We always strive to keep our costs low and our prices competitive without sacrificing quality. Products were individually evaluated and adjusted to reflect any changes in raw material and supplier costs. The majority of brass and hose items have increased between 3% to 4%. Prices remain unchanged for most cabinets, steel bodies, aluminum adapters, extinguishers, sprinkler accessories, and certain brass commodities. In some cases, product pricing has been reduced based on strategic sourcing.

Please disseminate this PDF pricing guide to the appropriate staff members, and contact our [receptionist](#) to request printed copies. Our customer service and sales teams are happy to answer any questions on specific products and pricing. We remain committed to providing you with competitively priced premium quality domestic and global fire protection products with first-rate service and technical support.

We hope that this advance notice will allow your customers time to efficiently order materials for current projects. Please feel free to contact me directly with any questions or concerns. As always, thank you for your business and continued partnership!

Sincerely,

Peter Levine
